

# TTW “Thriller” Song Variations Inventory

To download tracks: [www.thrilltheworld.com/learn/audio](http://www.thrilltheworld.com/learn/audio)

There are 2 types of track:

**Thriller w Script:** Vocal track reading the Official *Thrill the World* Dance Script on top of the single of *Michael Jackson’s “Thriller.”*

**Thriller NO Script:** The radio single of *Michael Jackson’s “Thriller.”*

Each of the 3 types of track have been slowed down at various speeds so that you can start with the slowest one and progressively work your way up to dancing at the regular speed of the original song.

(-50) is the slowest = 50 points slower than original song

(-05) is the 2<sup>nd</sup> fastest = 5 points slower than original song

(-00) is the regular speed = the original song

Use the tracks you need!

If you wish to use the original radio single of Thriller, as it is used in these videos, you’ll need to purchase a copy of the song. Make sure you use the version that is 5 minutes 57 seconds long (give or take a second). Most important, is that when you dance to the track, the choreography matches the sections of music exactly as in the *Thrill The World* videos. There was a group that used the Thriller song from his “Number 1s” album and the intro was 16 counts shorter so all the choreography was off.

All of these tracks are the full length song (5:58) which may be referred to as the six-minute song or the 5-minute dance = same thing. Below are the 3-minute dance tracks but not as many speed variations. Just use the full length practise tracks if you are doing the 3-minute performance. And at the bottom are the audio clips for each lesson at regular speed.
